## PROJECTS

---

### Worklyne – Business & Workforce Management Platform

A comprehensive operations panel designed for startups, offering centralized control over HR, task management, and client operations.

- Role-based login with OTP verification (SuperAdmin, Admin, HR, Manager, Employee)
- Live attendance tracking, leave & break management, and performance reporting
- Task and project management with time tracking and team collaboration tools
- Event scheduling integrated with Google Calendar and Google Meet
- Centralized policy acknowledgment for company-wide compliance
- Salary management module with downloadable payslips and performance summaries
- Real-time ticketing system, internal feedback, and live chat support
- Client reporting with exportable PDFs for performance transparency
- Smart integrations: Slack, ChatGPT API, UptimeRobot API, Firebase Cloud Messaging (FCM)

## Akash Mega Mart – Admin Panel for Grocery Platform

Developed a full-featured Admin Panel to manage the website and mobile app for an online grocery store.

- Role-Based Login: Secure access for Admins and Delivery Staff
- Category Management: Structured product categories for seamless navigation
- Product Management: Real-time inventory sync with Marg ERP
- Order Management: Live order tracking with status updates
- Offers & Coupons: Admin panel to manage discounts and promotions
- Brand Management: Organized brand listings for enhanced visibility
- Delivery Management: Assignment and tracking of delivery personnel
